

Self-Running Nature School

This package will give you the templates you need to run a simple, unique and self-running nature school, nature learning program, nature immersion days, for the children in your circle.

This package makes use of lawful private sector sovereign declarations to keep public sector paperwork, fees and regulations from cutting off into the precious needed resources of the people running the program.

This package provides the templates needed to get you from preparation, to start and operation of your own community run nature program for children, it has the benefits of:

- Minimal paperwork that protects you, the children and the parents from external public authorities from getting in your business
- Creating a context of radical responsibility for the associated members
- Conflict resolution and emergency protocols for when shit hits the fan
- Follow step-by-step, fill in the template, adjust to your own needs and you'll have a sustainable, regenerative, community-operated nature program running in 1 to 3 months.

All you need are 3 people to take a stand for having a nature school.

These 3 people have the necessity for their children to:

- Spend time in nature in a learning context
- Spend time with other children and adults in nature
- Create regenerative spaces and practices for their family and community

These 3 people don't want to:

- Have their children be traumatized and tainted in public school systems

- Send their children away to public school or daycare to be with strangers for most of the day
- Cut off the connection of the children with nature

Estimated time 1 to 3 months of preparation.

All it takes is one determined person to move this forward and find the other 2 who would also take a stand for the self-running nature school to happen.

Logistics and steps

Preparation

Defining the details.

What are the bright principles of the school?

What is the name of the school? program? It might be that it's not even a school (this is important to define the language that you'll use).

What are the details that you already know of how you want it to go?

See Template #1

Save template 1 as a Google doc that you can share with your team later on for async collaboration.

Gathering of interest (message to the people you want to involve)

See Template #2

If invitee responds positively, follow up with template #3

After you have at least 2 other people committed to giving it a go for 3 to 6 months, then...

Go through the Template #1 together and fill out how you want it to go, ask each other what parts they want to include and have be part of the nature program.

Here are some foundational elements you might want to include:

- Regular forest walks and nature exploration
- Seasonal celebrations and nature-based festivals
- Gardening and learning about plant life cycles
- Animal tracking and wildlife observation
- Nature art and crafts using found materials
- Traditional ecological knowledge sharing
- Outdoor survival skills (age-appropriate)
- Nature journaling and observation skills
- Indigenous stories and land acknowledgment practices
- Weather observation and natural phenomena study
- Outdoor free play and risk assessment learning
- Community service through environmental stewardship
- Natural building and fort making
- Medicinal and edible plant identification (with expert guidance)
- Music and movement in nature

Additional Considerations:

- Parent rotation schedule for supervision
- Wet weather contingency plans
- Documentation methods for learning journey
- Safety protocols and first aid procedures
- Integration of academic learning through nature

Consolidating the association and preparing the members agreement.

Finding interested families to join.

Finding the mentors.

Adult mentors and children ratio.

I recommend a ratio of 2 adult mentors for 12 children.

Starting

First day!

Second day!

Third day!

You're running.

Operation & Management

Weekly Logistic message to group chat.

Check first aid kits.

Tools maintenance.

Templates

#1 — Nature School Preparation Planning Worksheet

Here's a worksheet template to help define the key details of your nature school program:

1. Program Identity

- Program Name: _____
- Type of Program (school/immersion days/learning program):

2. Core Principles

List 3-5 bright principles that will guide your program:

(I.e.: Connection to Nature, Child-Led Learning, Children Culture, Community Integration, Ecological Stewardship, Holistic Development, Regeneration, etc.)

1. _____
2. _____
3. _____

4. _____

5. _____

3. Program Details

- Age Range: _____
- Group Size: _____
- Frequency (daily/weekly/monthly): _____
- Duration of Sessions: _____
- Location(s): _____

4. Learning Approach

Describe your approach to nature-based learning:

- Main Activities: _____
- Learning Philosophy: _____
- Integration with Nature: _____

This template will help establish the foundational elements of your nature program.

#2 — Initial Interest Message Template

Dear <name>,

I'm reaching out because I've been dreaming about creating a self-running nature-based learning program for our children, and I wanted to gauge your interest in being part of this journey.

The vision is to create a self-running nature program where our children can:

- [ENTER YOUR PRINCIPLES AND GOALS HERE, I.E.:]
- Learn and play in nature regularly
- Build meaningful connections with other children and adults
- Develop a deep relationship with the natural world

We're looking for families who share this vision and would be interested in collaborating to make this happen. The program would be co-created by participating families, ensuring it meets our collective needs and values.

If this resonates with you, I'd love to hear your thoughts and discuss the possibility of working together to bring this vision to life.

Please let me know if you'd like to learn more or have a conversation about this.

Warmly,
[Your name]

#3 — Follow-up Message Template (Casual Version)

Hey [name]! 🌿

I'm so thrilled you're interested in being part of this adventure! Your enthusiasm about creating this nature program for our kids really means a lot.

I can already imagine our little ones exploring, learning, and growing together in nature. How amazing is it that we get to create this for them?

Right now, we're gathering a small core team (looking for 2-3 more wonderful humans like yourself) who'll help shape this into something really special. While we're connecting with others, I'd love to hear your dreams for this program!

I've put together a little brainstorming doc here [INSERT LINK] where we're collecting ideas. Feel free to jump in and add your thoughts - what would make this program perfect for your family? What kinds of activities would light up your child's eyes? Dream big!

Maybe we could grab a coffee/tea soon and chat more about all this? I'd love to hear your story and what drew you to this idea.

So excited to be on this journey together!

With joy,
[Your name]

#4 — Nature Program Implementation Checklist

Phase 1: Planning & Foundation

- ☐ Complete Template #1 - Nature School Preparation Planning Worksheet
- ☐ Define program name and core principles
- ☐ Identify potential locations and assess suitability
- ☐ Create initial budget estimate

Phase 2: Team Building

- ☐ Send initial interest messages (Template #2) to potential collaborators
- ☐ Follow up with interested parties (Template #3)
- ☐ Schedule first team meeting
- ☐ Establish core team of at least 3 committed members

Phase 3: Program Development

- ☐ Draft program schedule and activities
- ☐ Create safety protocols and emergency procedures
- ☐ Develop parent rotation schedule
- ☐ Establish documentation methods

Phase 4: Legal & Administrative

- ☐ Draft member agreements
- ☐ Create necessary waivers and forms
- ☐ Set up communication channels
- ☐ Establish financial tracking system

Phase 5: Pre-Launch Preparation

- ☐ Source necessary equipment and supplies
- ☐ Create first aid kits
- ☐ Prepare welcome packets for families
- ☐ Schedule parent orientation

Phase 6: Launch

- ☐ Conduct first day activities

- ☐ Document and evaluate first session
- ☐ Gather initial feedback from families
- ☐ Make necessary adjustments based on feedback

Phase 7: Ongoing Operations

- ☐ Establish regular check-in meetings
 - ☐ Create system for ongoing program evaluation
 - ☐ Develop plan for seasonal activities
 - ☐ Set up mentor training and support system
-

#5 — Initial Parent Outreach Template

Dear [Parent's Name],

I hope this message finds you well! I'm reaching out because we're starting a special nature-based learning program for children in our community, and I thought your family might be interested.

We're creating a space where children can:

- Explore and learn in nature regularly
- Build confidence through outdoor adventures
- Connect with other children in a natural setting
- Develop a deep appreciation for the natural world

We're in the early stages of gathering interested families, and we'd love to hear your thoughts. Would you be open to learning more about this program?

If this sparks your interest, I'd be happy to share more details or chat over coffee about how this could work for your family.

Looking forward to hearing from you!

Warmly,
[Your Name]

#6 — Warm Connection Response Template

Hey [Name]! ✨

I'm thrilled to hear back from you! Your interest in the program means a lot, and I'd love to meet up to share more about this incredible journey we're embarking on.

How about we grab a [coffee/tea/walk in nature] to chat? I'm free:

- [Day] morning
- [Day] afternoon
- [Day] around [time]

Let me know what works best for you!

In the meantime, I've put together the foundational document that outlines the vision and structure of the program. You can explore it here: [INSERT GOOGLE DOCS LINK]. This document will give you a solid understanding of what we're creating together.

Looking forward to connecting in person and hearing your thoughts!

With excitement,
[Your name]

#7 — Transitioning from Public School Checklist

Phase 1: Initial Assessment & Planning

- ☐ Research your state's homeschooling laws and requirements
- ☐ Document your reasons for transitioning and desired outcomes
- ☐ Calculate budget implications (potential income changes, resources needed)
- ☐ Create a support network of like-minded families

Phase 2: One-Day Transition (Starting Point)

- ☐ Choose which day of the week works best for your schedule
- ☐ Submit part-time attendance request to current school
- ☐ Plan activities and learning experiences for the chosen day

- ☐ Create a simple documentation system to track progress

Phase 3: Preparation for Extended Transition

- ☐ Evaluate first month of one-day arrangement
- ☐ Research curriculum options (if desired)
- ☐ Connect with local homeschool groups and resources
- ☐ Plan gradual increase in home learning days

Phase 4: Full-Time Transition

- ☐ File necessary paperwork with school district
- ☐ Set up dedicated learning space at home
- ☐ Create weekly rhythm and schedule
- ☐ Establish clear boundaries between work and learning time

Considerations for Each Phase

Work Adjustments:

- Flexible work hours or remote work options
- Job sharing with partner or support network
- Adjusting work schedule to accommodate learning days

Family Routine Changes:

- Morning routine modifications
- Meal planning and prep
- Integration of household tasks with learning

Social Considerations:

- Regular meetups with other families
- Community activities and classes
- Maintaining friendships from previous school

Learning Environment:

- Creating flexible learning spaces
- Gathering necessary resources and materials
- Setting up technology needs

Support System:

- Local homeschool groups
 - Online communities
 - Extended family involvement
 - Professional support (tutors, mentors, etc.)
-

We Need Natural Learning More Than Ever

In today's world, our children are increasingly disconnected from nature, spending more time with screens than with trees.

Traditional education systems, while well-intentioned, often fail to provide the deep connection with nature that our children need.

The Problems We Face

- 🏠 Bureaucratic hurdles and expensive permits make it difficult to start nature programs
- 📄 Overwhelming paperwork and regulations drain resources that should go to our children
- ⚖️ Legal concerns and liability issues stop many great initiatives before they begin
- 👥 Lack of adult collaboration tools makes coordinating schedules and responsibilities challenging
- ⌚ Modern life's busy schedules and work commitments leave little time for organizing ongoing nature activities

- 🎯 Fear of taking the lead prevents many capable individuals from starting their own programs
- 🔥 Program organizer burnout due to trying to manage everything alone

Common Solutions That Don't Work

Current approaches often:

- Juggle demanding schedules within traditional education systems
- Run casual groups without proper structure or sustainability
- Participate in programs that don't fully align with our values or vision

A Simple, Effective Solution

This Nature Program Template Package provides everything you need to create a lawful, community-run nature program without the common challenges of getting permits and approvals, coordinating parent schedules, or managing safety protocols.

This complete package saves you hundreds of hours of research, planning, and writing. Simply fill in your information, customize the templates to match your vision, and you're ready to launch your nature program. No more starting from scratch or reinventing the wheel. Everything you need is right here.

🌿 Ready to start your nature program? Get the complete template package now and begin your journey: [Nature Program Templates](#)

What You'll Get

- ✅ Lawful templates that protect your program and participants
- ✅ Step-by-step implementation guides from zero to running your program
- ✅ Parent communication templates
- ✅ Program structure guidelines
- ✅ Safety protocols and procedures

-  Ongoing support resources and community connection tools

This Is For You If...

- You believe children need more time in nature
- You want to create meaningful change in your community
- You're ready to take action but need guidance on the practical steps

 Join other conscious parents and educators creating positive change: [Get Started Today](#)

Simple Pricing

One-time payment of \$97 gives you lifetime access to all templates and future updates.

About the Creator

Hi! I'm Jorge Pedret, and I created these templates after spending years navigating the challenges of establishing nature-based education programs.

As a parent and educator, I've experienced firsthand the frustrations of bureaucratic roadblocks and complex regulations that often prevent meaningful nature education from happening.

My journey began when I tried to start a small nature program in my community and discovered just how many obstacles stood in the way.

I worked with law experts and experienced educators to develop a system that works.

These templates are the result of:

- ✨ 5+ years of hands-on experience running nature programs
- 📖 Extensive research into educational sovereignty and private sector solutions
- 🤝 Collaboration with successful nature program operators
- ⚖️ Consultation with law experts in educational freedom

My mission is to make it easier for others to create meaningful nature education experiences without getting caught up in unnecessary red tape.

Every template in this package has been tested and refined through real-world application.

I take a stand for children to have a space to learn and grow in nature, and I'm committed to making this possible for more communities. Ready to start? [Get the complete package now](#) 🌿

Based on the content selected, I suggest the following types of images to enhance the message:

- **Header Image:** A wide shot of children exploring in nature, perhaps discovering plants or climbing trees, to support the "disconnected from nature" message
- **Problem Section:** A split image showing the contrast between paperwork/bureaucracy and natural learning, illustrating the bureaucratic hurdles mentioned
- **Solution Section:** A series of images showing:
 - Children engaged in organized nature activities
 - Templates and documents from the package
 - Safety protocols in action
- **About Creator Section:** A professional headshot of you in an outdoor setting, which would align with your 5+ years of experience running nature programs

I recommend using authentic, high-quality photos that show real children (with proper permissions) engaged in nature activities rather than stock photos, as this will better convey the authenticity of your program.
